The genius of FabFilter Pro-tools LE. Streamlining of the workflow through integration of rack mounted API hardware effects.

Fluid synth like emulations of vintage effects from the analog age such as the EMI VCS3, the EMT 125 and the Strymon El Capistan reissue. Amazing integration with the latest in virtual studio technology such as the brand new Marantz Dual DIN and the Grandstreams-Dual DIN solutions. Go ahead and just touch the amazing musical excellence of these virtual instrument plugins that offer you control, precision and awesome musical performances that simply cannot be achieved in a physical world.

Try it free for 30 days. If you are not 100% satisfied for any reason, your account will be automatically cancelled.

HOUSESYNTH is a sound design, production, and composition tool based on the renowned virtual instrument plugin, iZotope Ozone 5. The tool is composed of an intuitive sound design and composition workflow that allows users to easily process audio files without the need for audio software. The plug-in architecture used to achieve the sound design and composition workflow

is based on customizable wavetables, advanced LFOs, and oscillators. It allows users to choose from a wide variety of sound design and creation tools as well as add their own custom settings. HOUSESYNTH is dedicated to helping audio professionals create the best tracks and maximize the sounds of their production projects. As such, the plug-in features a seamless workflow designed to address the needs of mastering and production. It offers advanced and intuitive tools that allow users to create the best sound from virtually any audio file. BIG EDIT Pro - Additional module: bring them closer to the music! FANTASTiC | April 27, 2014 | 786 MB The library module is an integral part of the BIG EDIT Pro toolset. It offers musicians of any level an excellent palette of tools that helps them get the most out of their music. The additional modules included with BIG EDIT Pro are the perfect companion to the library module for all types of music, from jazz and rock to ethnic music. If you like BIG EDIT Pro, we suggest to try BIG EDIT PRO – Elements: The audio file browser is a powerful tool for managing and organizing your soundtracks in folders, as well as previewing them. Apart from that, the audio file browser can search for and locate your files and folders. It is fast and easy to use. 82157476af
